
Calfee has been helping clients achieve their goals for more than 100 years. Grounded in a practical and client-focused culture, we combine our skills, training and experience to provide legal counsel and practical results. A full-service law firm with over 200 professionals and practices in all substantive areas, our commitment to clients is to be readily accessible and responsive, invest in superior knowledge of each client's particular circumstances, and focus our talent and resources on results that work for our clients. This culture is the benchmark for our attorneys and staff.

We are proud of our tradition as a leader in serving emerging and middle market clients. The professional expertise and pragmatic approach Calfee has developed over the years in providing capital formation, transactional counseling and litigation services for companies with limited resources have made us an attractive choice to the full spectrum of organizations. Today, our more than 3,000 clients range from new economy start-ups and closely held businesses to large government agencies and members of the Fortune 500. Calfee's securities, corporate, commercial and litigation practices are long established and well known nationally for sophisticated representation of venture capital funds, investment banks, financial institutions, publicly held companies and other users of complex professional services. We have one of the largest and most sophisticated intellectual property and information technology practice groups in the Midwest to address our clients' increasingly vital need to protect and capitalize on proprietary and informational assets. But no matter how sophisticated the project or the client, we never stray far from our entrepreneurial bloodlines in our mandate for teamwork, respect for our clients, efficiency and results.

As accomplished businesses do, Calfee looks beyond traditional services to meet the needs of our clients. We have established a proprietary network of independent foreign firms who, together with our more than 46 full-time IP and IT attorneys, provide cost conscious, worldwide expertise and protection to our clients. Our internal technology skills are also a cornerstone for providing up-to-the-minute extranet and similar information and docket services for client access. To supplement our extensive public law and public finance practices, we have a highly-respected, wholly-owned lobbying subsidiary, Thomas Green & Associates LLC, to provide clients with access to a full range of lobbying and governmental relations services.

Our national and international reach is supported by our participation in Lex Mundi, the world's leading association of independent law firms, comprised of more than 15,000 attorneys in 155 countries. We supplement this extraordinary network of firms with additional or complementing resources as circumstances arise, continuously managing responsiveness and coordination for each client to assure the same dedicated service as we demand of ourselves.
